

End-point PCR products phase-out: Transition effortlessly to new focus products

We are bringing you new and improved versions of your favorite QIAGEN PCR kits. To this end, various old product lines will be sequentially phased out during 2020/21. The current information concerns products that will be discontinued in production by **October 15, 2020**, and afterward, offered only until stocks last. We will continue communicating via kit stuffers, direct communication to end-users and purchasers via email, and with alerts appearing on product catalog pages.

We assure you a smooth transition to our successor products

Want to order a trial kit or learn more about the features of the successor kits? Visit the catalog page of the successor products at www.qiagen.com.
